2. Please clarify information indicating that the National Commission of Human Rights has been severely limited in its capacity and functioning owing to a lack of adequate funding and of cooperation from the federal and provincial authorities, that it has been restricted from investigating allegations of human rights abuses brought against the intelligence agencies and that it was not consulted in the process of developing a national action plan on human rights or in drafting the State party’s report to the Committee, despite its mandate. Please provide information on the new national human rights institute to be established under the 2016 national action plan for human rights, including on its mandate, powers, composition and relationship with the Commission.
